Skill Drill 17-2 Giving Chest Compressions to an Infant

Task: Give chest compressions to an infant.					
Performance Observations: The candidate shall be able to correctly give infant chest compressions.					
Candidate Directive: "Properly give infant chest compressions."					
No.	**Task Steps**	**First Test**		**Retest**	
		P	F	P	F
1.	Find the proper position: just below the nipple line, middle or lower third of the sternum.				
2.	Wrap your hands around the body, with your thumbs resting at that position.				
3.	Press your thumbs gently against the sternum, compressing ½" to ¾" deep.
