Sexual Assault

ALS
BLS
Protocol

Protect the scene and evidence

ABCs
Vital signs

Offer reassurance
and emotional support

Do not allow the patient to bathe, change clothes, or use the restroom. Do not cut clothes. If the patient must urinate, collect the specimen and do not allow the patient to wipe.

Notify police if they are not present. Final jurisdiction will rest on law enforcement where the assault took place.

Chart direct quotes

Follow appropriate
treatment protocols

Transport to nearest
appropriate facility
