

How to Set Up a Live Course Chat

This document outlines steps for creating an online chat room for participants within your Navigate course. The chat feature may be used to facilitate real-time conversation for all course participants within a central chat module under a topic chosen by the instructor.

1. From the course homepage, navigate to the course section you wish to locate the live Chat activity. Then use the **Edit Mode** button at the top of the page to turn editing ON.

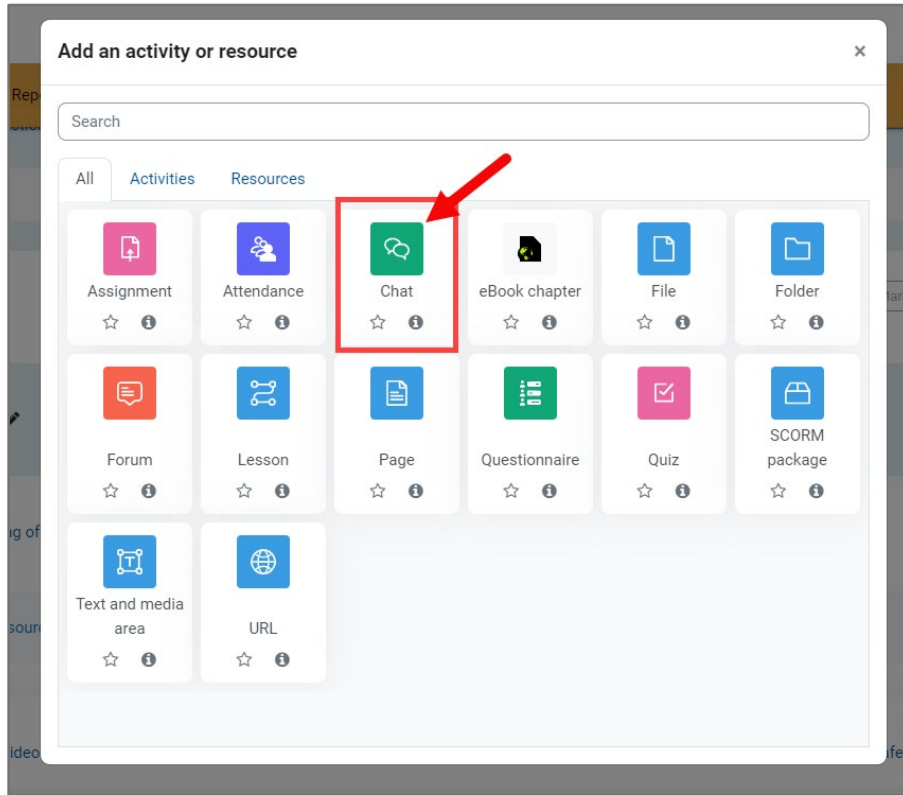

2. Then scroll down the page and click the **Add activity or resource** option below the page contents.

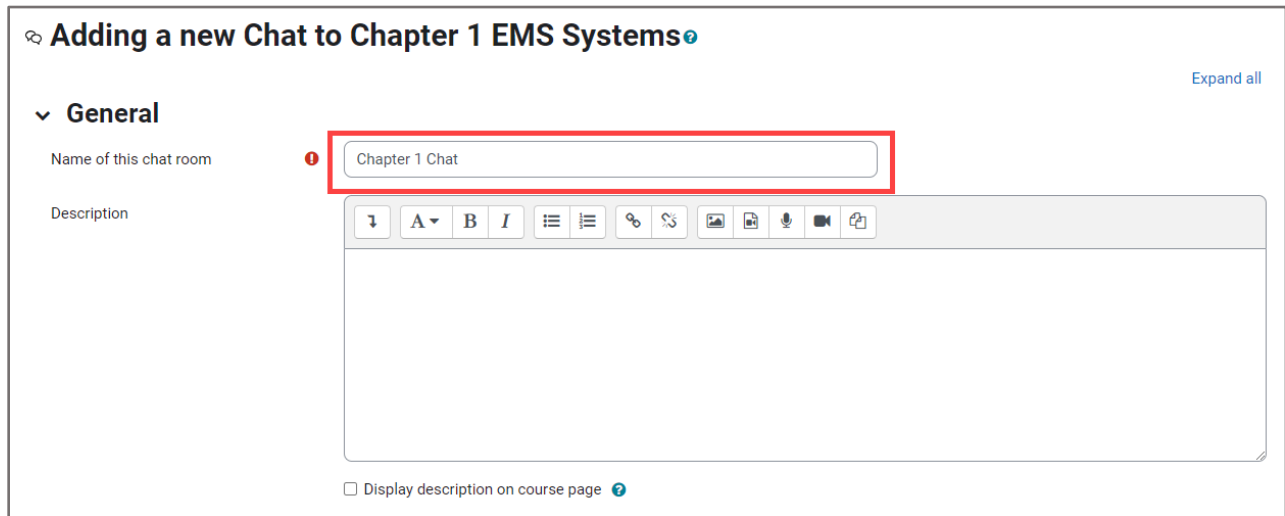

Technical Support: www.jblearning.com/techsupport | support@jblearning.com | 1-978-443-5000 | M-F 8:30am – 8:00pm

3. From the resulting popup window, select the **Chat** option.

4. The resulting page displays all settings available to create and manage your new **Chat** activity. Start by entering a title for the Chat session in the **Name of this chat room** field.

5. Next, you may enter a description for the chat in the **Description** field, which may include the purpose of the discussion and your expectations for participation.

Everyone can view past sessions ?

> Common module settings

> Restrict access

7. The **Repeat/publish session times** menu below should be used to set how to communicate the discussion time to your students. It may also be used to create repeating chat sessions on a regular cadence of daily or weekly. If you choose a recurring approach, only the Chat time and date of the next upcoming session will populate to your class calendar on a continuous basis.
