

# How to Manage the Way Students Review Quiz Results and Feedback

*This document contains instructions on how to manage the way in which students can review quiz results and receive feedback on quizzes within the course.*

1. Begin by navigating to the quiz for which you would like to adjust review options. On the resulting page, click the **Settings** menu option at the top of the page.

Technical Support: [www.jblearning.com/techsupport](http://www.jblearning.com/techsupport) | [support@jblearning.com](mailto:support@jblearning.com) | 1-978-443-5000 | M-F 8:30am – 8:00pm

2. Scroll down the page and click to expand the **Review options** section. There are four checkbox lists where you may toggle on or off various options to manage the results and feedback that students are able to review and the timing for when they may do so.

**Review options** ?

During the attempt	Immediately after the attempt	Later, while the quiz is still open	After the quiz is closed
<input type="checkbox"/> The attempt ?	<input checked="" type="checkbox"/> The attempt	<input checked="" type="checkbox"/> The attempt	<input type="checkbox"/> The attempt

3. The title above each column refers to the timing for when the selected feedback options below will apply. Each checkbox option represents the type of feedback that may be enabled or disabled under the respective timing.

4. For example, **During the attempt**, or as students are actively completing the quiz, all feedback options are restricted by default. This is because, in most testing instances, instructors will not want students distracted with real-time results as they are completing a quiz.

5. The **Immediately after the attempt** and **Later, while the quiz is still open** columns can be used to limit the feedback students can review upon or after completing their quiz. Review options in the last column, **After the quiz is closed**, will only be available in the event you have applied a deadline for when the quiz closes in the **Timing Section**.

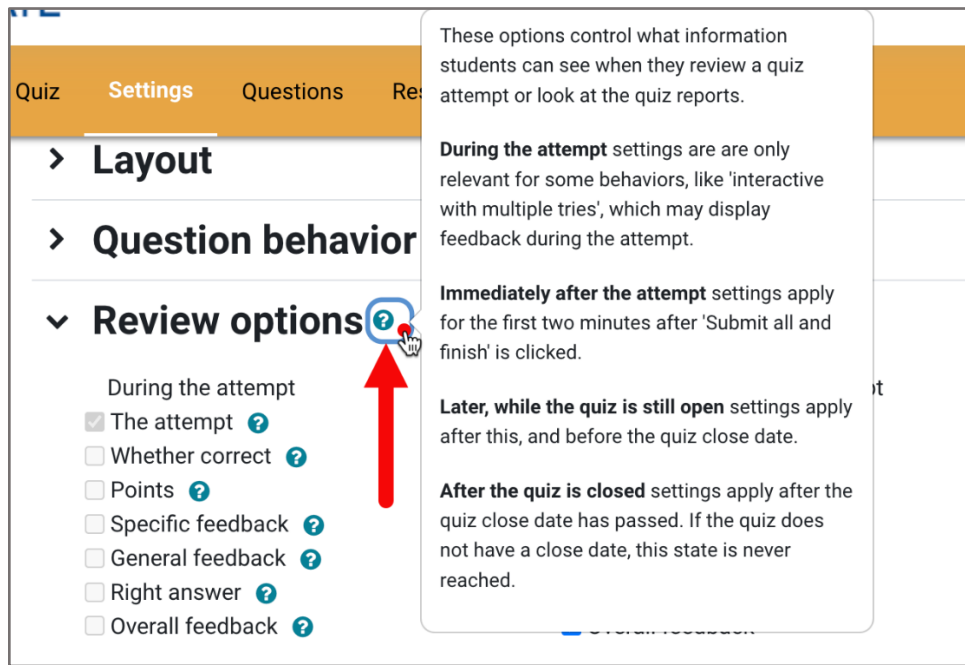

<p>Students have 2 minutes to review the selected results after completing the quiz.</p>	<p>Immediately after the attempt</p> <ul style="list-style-type: none"> <li><input checked="" type="checkbox"/> The attempt</li> <li><input checked="" type="checkbox"/> Whether correct</li> <li><input checked="" type="checkbox"/> Points</li> <li><input checked="" type="checkbox"/> Specific feedback</li> <li><input checked="" type="checkbox"/> General feedback</li> <li><input checked="" type="checkbox"/> Right answer</li> <li><input checked="" type="checkbox"/> Overall feedback</li> </ul>	<p>Later, while the quiz is still open</p> <ul style="list-style-type: none"> <li><input checked="" type="checkbox"/> The attempt</li> <li><input checked="" type="checkbox"/> Whether correct</li> <li><input checked="" type="checkbox"/> Points</li> <li><input checked="" type="checkbox"/> Specific feedback</li> <li><input checked="" type="checkbox"/> General feedback</li> <li><input checked="" type="checkbox"/> Right answer</li> <li><input checked="" type="checkbox"/> Overall feedback</li> </ul>	<p>Students can review the selected results until the quiz is closed or locked</p>

6. Using each column in the **Review options**, you may toggle precise feedback your students can see at the given times. By default, students may review their comprehensive results immediately after finishing the quiz.

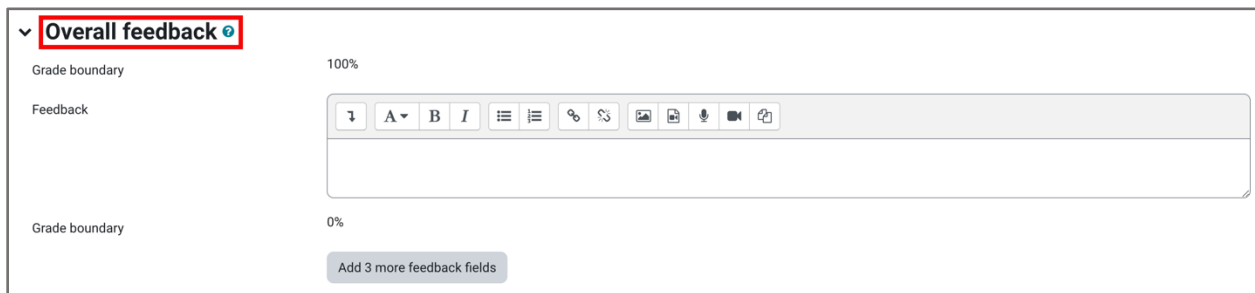

7. If you have enabled a **Close the quiz** setting in the **Timing** section and would like your students to review feedback beyond this deadline, ensure that you have selected the applicable options under the **After the quiz is closed** column.

<p>Later, while the quiz is still open</p> <ul style="list-style-type: none"> <li><input checked="" type="checkbox"/> The attempt</li> <li><input checked="" type="checkbox"/> Whether correct</li> <li><input checked="" type="checkbox"/> Points</li> <li><input checked="" type="checkbox"/> Specific feedback</li> <li><input checked="" type="checkbox"/> General feedback</li> <li><input checked="" type="checkbox"/> Right answer</li> <li><input checked="" type="checkbox"/> Overall feedback</li> </ul>	<p>After the quiz is closed</p> <ul style="list-style-type: none"> <li><input type="checkbox"/> The attempt</li> <li><input type="checkbox"/> Whether correct</li> <li><input type="checkbox"/> Points</li> <li><input type="checkbox"/> Specific feedback</li> <li><input type="checkbox"/> General feedback</li> <li><input type="checkbox"/> Right answer</li> <li><input type="checkbox"/> Overall feedback</li> </ul>

8. For more details about what each setting entails, click the question bubbles next to the options.

9. Scroll down the settings page to the **Overall feedback** section. Here, you have the option of writing your own custom feedback for the students depending on their achieved score.

10. Enter the feedback you wish to automatically provide in the **Feedback** field, click the **Add 3 more feedback fields** button, and then specify the grade cutoff to define the bottom of the range for students who will receive this feedback.

11. In this example, all students who achieve a 90% or higher will receive the same feedback of “Excellent work.” Using the new fields added, we have also specified that students who achieve between an 80% and 89% will automatically receive the feedback of “Good job!”

12. When finished, scroll to the bottom of the page and select **Save and return to course** to return to your course homepage, or click the **Save and display** button to review the quiz and verify your settings changes.
