Breast Care Certification Review

Connie Henke Yarbro, MS, RN, FAAN, University of Missouri Sinclair School of Nursing; Seminars in Oncology Nursing
Debra Wujcik, PhD, RN, AOCN, FAAN, Vanderbilt Ingram Cancer Center; Vanderbilt University School of Nursing
Barbara Holmes Gobel, RN, MS, AOCN, Northwestern Memorial Hospital

Breast Care Certification Review is the first comprehensive learning package designed to help prepare oncology nurses become certified in caring for patients with breast cancer. Providing numerous practice questions with comprehensive answer rationales, it is the essential guide for nurses planning to sit for the Certified Breast Care Nurse (CBCN) examination.

Organized around the eight areas tested on the CBCN Blueprint:

- Breast Health
- Diagnosis and Staging
- Treatment Modalities
- Symptom Management
- Psychosocial and Spiritual
- Survivorship
- End of Life Care
- Professional Performance and Education

A Robust Online Assessment Tool to Prepare for Certification Examinations

Navigate TestPrep: Breast Care Certification Review is a dynamic and fully hosted online assessment tool designed to help nurses prepare for certification examinations by offering case-based questions, detailed rationales, and robust reporting.

- Randomized questions create new exams on each attempt
- Monitors results on practice examinations with score tracking and time on each task
- Reporting tools evaluate progress and results on each attempt

Oncology Nursing Review
FIFTH EDITION

Connie Henke Yarbro, MS, RN, FAAN,
University of Missouri Sinclair School of Nursing;
Seminars in Oncology Nursing
Debra Wujcik, PhD, RN, AOCN, FAAN,
Vanderbilt Ingram Cancer Center;
Vanderbilt University School of Nursing
Barbara Holmes Gobel, RN, MS, AOCN,
Northwestern Memorial Hospital

Oncology Nursing Review, Fifth Edition is the essential learning tool to help oncology nurses preparing for certification and/or recertification. Completely revised according to the latest OCN® Test Blueprint, it provides nearly 1,000 practice questions with comprehensive rationales. New to this edition are helpful page references to the classic text Cancer Nursing: Principles and Practice, Seventh Edition for more detailed information to help you prepare for the exam.

Organized according to the 11 areas tested on the OCN® Test Blueprint:

- Health Promotion and Disease Prevention
- Screening, Early Detection, and Diagnosis
- Scientific Basis for Practice
- Cancer Treatment Modalities
- Symptom Management
- Psychosocial Dimensions of Care
- Oncologic Emergencies
- Sexuality
- Survivorship
- End-of-Life Care
- Professional Performance

…”comprehensive and covers all aspects of oncology nursing, using a question-and-answer format with rationales for the correct answers. It also includes access to a website with additional practice tests. This fifth edition is mandatory as the field of oncology sees constant growth and change.”

2012 Oncology Nursing Drug Handbook

Gail M. Wilkes, MSN, APRN-BC, AOCN, Boston Medical Center
Margaret Barton-Burke, PhD, RN, University of Missouri at St. Louis

Written especially for nurses caring for patients with cancer, the 2012 Oncology Nursing Drug Handbook uniquely expresses drug therapy in terms of the nursing process: nursing diagnoses, etiologies of toxicities, and key points for nursing assessment, intervention, and evaluation. Updated annually, this essential reference provides valuable information on effective symptom management, patient education, and chemotherapy administration.

Completely revised and updated, it includes:

- New drug entries and revisions
- Specific drugs described in terms of their mechanism of action, metabolism, drug interactions, laboratory effects/interference, and special considerations
- The most important and common drug side effects
- Greater discussion of fundamentals of malignant transformation, new molecular targets, and drugs in the pipeline

Table of Contents:

Section 1: Cancer Treatment
Chapter 1: Introduction to Chemotherapy Drugs
Chapter 2: Biologic Response Modifier Therapy
Chapter 3: Antineoplastic Treatment Agonists: Radiosensitizers, Chemosensitizers, and Chemical Adjuncts
Chapter 4: Cytoprotective Agents
Chapter 5: Molecularly Targeted Therapies

Section 2: Symptom Management
Chapter 6: Pain
Chapter 7: Nausea and Vomiting
Chapter 8: Anorexia and Cachexia

Chapter 9: Anxiety and Depression

Section 3: Complications
Chapter 10: Managing Tumor-Related Skeletal Events and Hypercalcemia
Chapter 11: Infection
Chapter 12: Constipation
Chapter 13: Diarrhea

Appendix 1: Controlling Occupational Exposure to Hazardous Drugs
Appendix 2: Common Toxicity Criteria for Adverse Events v. 3.0 (CTCAE)

Targeted Cancer Therapy
A Handbook for Nurses
Gail M. Wilkes, MSN, APRN-BC, AOCN, Boston Medical Center
ISBN-13: 978-0-7637-7211-6 • $67.95*
Paperback • 354 pages • © 2011

Targeted Cancer Therapy: A Handbook for Nurses is the essential guide for nurses interested in the most recent treatment option of transforming cancer into a chronic illness. Comprehensive yet easy to understand, this text covers foundational concepts in cell and normal biology and features relevant analogies and easy-to-follow discussions on malignant transformation, metastases, cellular pathways, and toxicities.

Contemporary Issues in Lung Cancer
A Nursing Perspective
SECOND EDITION
Marilyn Haas, PhD, APN-C
ISBN-13: 978-0-7637-6051-9 • $102.95*
Hardcover • 364 pages • © 2010

“This is a high-quality book that offers evidence-based information and includes a comprehensive reference list in each chapter. It is written by a nurse for nurses, which is important as nurses deal with unique issues in healthcare. The field of cancer management is constantly growing with new treatments and research, and this updated edition includes the latest treatment options.”

—Margaret R. Hurst, BSN, University of New Mexico Hospital

With today’s increasing number of cancer survivors, more clinical nurses are helping their patients through the survivorship process. *The Jones and Bartlett Learning Survivorship Series* is a set of essential references for clinical nurses to help identify key components of survivorship care. Written by oncology nurses and coauthored by professionals in the fields of social work, physical therapy, and genetics, these diagnosis-specific guides deliver the expert information nurses need to impact treatment positively and plan for the future health of survivors. The manuals give valuable tips on counseling patients with cancer through the various components of survivorship including diagnosis and treatment, follow-up, healthy behaviors, and personal growth.
Clinical Practice Protocols in Oncology Nursing

Debra S. Prescher-Hughes, RN, BSN, OCN
Cynthia J. Alkhoudairy, RN, BSN, OCN

ISBN-13: 978-1-4496-4752-0 • $84.95*
Paperback • 675 pages • © 2007

Clinical Practice Protocols in Oncology Nursing is a comprehensive, step-by-step guide to caring for the cancer patient. Arranged alphabetically by disease, it provides guidance on administrative and chemotherapy delivery. This unique and practical reference book is ideal for oncology nurses, oncology nurses in training, and administrators of cancer care clinics and hospitals.
