Available from Fire Fighter to Fire Officer, Navigate transforms how students learn and instructors teach by bringing together authoritative and interactive content aligned to course objectives, with student practice activities and assessments, adaptive study planning and remediation, and learning analytics reporting tools. Navigate empowers educators and students with easy-to-use, web-based curriculum solutions that optimize student success, identify retention risks, and improve completion rates. Using best practices in instructional design, Navigate uniquely focuses on developing students’ cognitive intelligence and practical skills needed for success in the 21st century workforce.

Navigate is a fully hosted and supported online learning solution delivered in the Moodle™ Course Delivery System. Some Navigate component modules can also be configured for locally hosted learning management systems such as Blackboard, Desire2Learn, and others. Find out more at www.jblnavigate.com.

**Interactive Course Lectures** promote student engagement and retention. Interactive Course Lectures offer rich multi-media content designed to appeal to many learning styles.

**Dynamic and Engaging Interactive eBooks** offer study advantages far beyond the print textbook and student workbook. With anytime access to complete textbook content, our enhanced eBooks allow students the flexibility to navigate between the text and enhanced activities for greater understanding of core concepts.

**Course Management Tools** (Course Manager) simplify the management and delivery of curriculum and assessments to students enabling “anytime, anywhere” access to learning. Instructors can track real-time student progress, manage assignments, and view results in the grade book.

**Practice Activities** give students an opportunity to try out new concepts in a safe learning environment. Featuring numerous resources such as a complete audio book and interactive skill drills, Practice Activities gauge understanding and help students study more effectively.

**The Assessment (TestPrep) tool** is designed to help students prepare for state or national certification examinations by offering case-based questions, and robust reporting to ensure a complete mastery of course concepts.

These Manuals Contain Test Questions from Performance Training Systems Exam Banks!

Each manual in the series is designed to prepare students to sit for training, certification, civil service, and promotional examinations by including the same type of multiple-choice questions they are likely to encounter on their examinations.

The practice examinations were written by fire service personnel and the content was validated through current reference materials and technical review committees. Additionally, each manual includes:

- Self-scoring guide with page references to leading resources for further study.
- Winning test-taking tips and helpful hints.
- Extensive coverage of relevant NFPA standards.
- Free access to a 150-question online practice exam (a $40 value).

Don’t waste time or money with other review manuals.

Thousands of fire service students rely on Performance Training Systems’ Exam Prep Series each year to ace their exams.
