NEW CHAPTERS:
- Hypersensitivity Reactions to Antineoplastic Drugs
- Extravasation
- Ocular and Otic Complications
- Symptoms When Death is Imminent

Designed to assist clinical oncology nurses in skillfully relieving and diminishing the cancer patient’s symptoms, this new edition provides essential information and the tools necessary to provide quality care to cancer patients.

“The content of this book is of excellent quality. [It] covers all areas of symptom management in the care of oncology patients. Each chapter/symptom also includes the Self-Care Guide for patient teaching, which is, perhaps, the most unique feature of the book. I am pleased to see the new sections dealing with hypersensitivity reactions to antineoplastic drugs and the symptoms when death is imminent.”

– Lorna Montoya, BSN, University of New Mexico Hospital, Doody’s Review Service

Included with each new print book is an Access Code for a Navigate Companion Website with editable PDFs of the self-care guides for oncology nurses to use with patients.
