"This is one of the classics that many clinicians have learned to rely on over the years...Because medicine transitions so quickly, the yearly update is well worth purchasing to stay current. I recommend this wholeheartedly to everyone in medicine. I remain personally grateful to the editors and editorial board for their work; they have saved me innumerable hours."

Doody's Book Review - 100 - ★★★★★
Welcome

It’s hard to believe that another year has gone by and the 2014 Pharmacopoeias have published! We’re proud to report that the series continues to receive accolades from customers and reviewers alike. In 2013, the Classic Pharmacopeia received another 5-Star review from Doody’s Book Review and the Internal Medicine book in our Clinical Review Series received its first 5-Star review this year. We have to admit, though, that our favorite reviews are the ones we regularly hear from physicians, nurses, PAs, students, etc. who call, write, or approach us at conferences to tell us that the Pharmacopoeias are among their most favorite resources.

We learned early on that Tarascon customers aren’t shy with their opinions and 2013 was no exception. We were happy to hear that the addition of color to the Classic and Deluxe versions made finding information within a drug entry easier, and we’re utilizing the use of color again in the 2014 Classic and Deluxe versions. At the request of a number of our customers, we’ve added red tabs to make navigating to particular sections faster. Let us know what you think! Also, we heard you loud and clear when you told us that the font size in the Deluxe version was getting too small, so it has been increased for 2014. We hope these new features, plus the standard addition of new drugs and tables, will provide you with an even more useful and effective resource.

In terms of our digital products, the Pharmacopeia mobile apps continue to receive rave reviews in the app stores. We’re currently working on an update to the functionality and design of the apps and will release an iOS 7 update very soon. Stay tuned for new features, updates, and brand new apps within the Tarascon suite of products coming in 2014.

Please keep your invaluable comments, suggestions, and questions coming. The feedback we receive from our customers throughout the year truly influences and shapes the Tarascon series. You can reach me directly at editor@tarascon.com. You can also stay current on what we’re doing by subscribing to our newsletter, The Monthly Dose, or visiting us on Facebook, Twitter, LinkedIn, or online at www.tarascon.com.

Wishing all of our customers a healthy, safe, and prosperous year. Thanks for a great 2013.

What Our Customers Are Saying...

“The Tarascon Pocket Pharmacopoeia is an outstanding and much-needed addition to my daily patient care. I purchased the larger Lab-Coat edition which affords the larger print, which I love. This book provides not only the medication information, its indications, any interactions, and correct dosing, but it just ‘feels’ like there’s so much more. To me, this is definitely a ‘must-have’ for any clinician.”

The Tarascon Pocket Pharmacopoeia® is the world’s leading portable drug reference and has been a popular and trusted source of portable drug information since 1987. Available in both print and digital formats, it is carried in essentially every medical bookstore in the United States, Canada, and around the world.

Used by prescribers around the world, including physicians, pharmacists, nurses, physician assistants, and dentists, the Tarascon Pocket Pharmacopoeia® 2014 Classic Shirt-Pocket Edition continues its tradition as a respected drug reference packed with vital drug information to help clinicians make better decisions at the point of care.

The Tarascon Pocket Pharmacopoeia® 2014 Classic Shirt-Pocket Edition details FDA approved drug dosing, available trade and generic formulations, metabolism, safety in pregnancy and lactation, relative drug pricing information, Canadian trade names, and an herbal & alternative therapies section. Multiple tables supplement the drug content, including opioid equivalency, emergency drug infusions, cardiac dysrhythmia protocols, pediatric drug dosing, and much more.

As always, each edition of the Tarascon Pocket Pharmacopoeia is meticulously peer-reviewed by experts and is now available in multiple print, mobile and online formats.

What Our Customers Are Saying... 😊

“It’s slim, easy to use, and the red text makes a huge difference in helping you find pertinent information quickly. I couldn’t imagine functioning in clinic without it.”

Tarascon Pocket Pharmacopoeia®
2014 SYMPTOMS & DIFFERENTIAL DIAGNOSIS EDITION
Mark A. Davis, MD, MS

Ideal for Students & Residents

Based on the Tarascon Pocket Pharmacopoeia 2014 Classic Shirt Pocket Edition, the Symptoms & Differential Diagnosis Edition contains the same award-winning content, but is organized by symptom. Each symptom contains an in-depth breakdown of signs, symptoms, differential diagnoses and more. This is the ideal reference for med students and residents!

What Our Customers Are Saying...

“I’ve been picking up Tarascons every year for over a decade and I keep getting it as it has proved its usefulness time and again. I am a military physician and have used this as a general medical officer, during deployments, as an OB/GYN resident, and as a hospital staff…Nothing beats the functionality of the Tarascon for rapid lookups for use in clinical situations. Plus, as a pocket peripheral brain, its other huge advantage has been its portability.

—Jackie

“Tarascon is my go to guide for drug information, and I purchase a new one every fall when the new edition comes out. The Lab-Coat edition…includes recommended dosing, non-approved uses and doses, breast milk safety, cost, and excretion routes. Drugs are organized by system and class so if your patient can’t get a class due to insurance, the alternatives in that class are right there!”
