

▶ TASK Jump-start vehicle using jumper cables and a booster battery or an auxiliary power supply.

Time off _____
Time on _____
Total time _____

CDX Tasksheet Number: C820

1. Research "starting a vehicle with a dead battery" or "jump starting procedures" in the appropriate service information for the vehicle you are working on. List the steps as outlined in the service information.

NOTE Caution: Some vehicle manufacturers prohibit jump-starting of their vehicles. If this is the case, inform your supervisor/instructor.

NOTE Follow these steps *exactly!*

2. Why is the last connection away from the battery, preferably on an unpainted solid metal component connected to the engine block?

3. Have your supervisor/instructor verify your answers.
Supervisor's/instructor's initials: _____
4. Connect the jumper cables as outlined in the service information or connect the auxiliary power supply (jump box) as was outlined in the service information.
5. Start the engine.
6. Remove the cables in the reverse order as they were installed.
7. Have your supervisor/instructor verify satisfactory completion of this procedure, any observations found, and any necessary action(s) recommended.
