	owertrain/engine control module; reprogram as necessary. eet Number: C664 AST MAST sc3
	d for this activity:
	Make Model
Odometer_	VIN
1.	List the ignition control module/powertrain control module-related customer concern/complaint:
2.	Research the particular concern in the appropriate service information and list the possible causes:
3.	Using the specified equipment and the correct procedure, inspect, test, and/or replace the ignition control module or powertrain/engine control module. List your test(s) and observations here:
4.	What is causing the customer concern?
5	Determine any necessary action(s) to correct the fault(s):

Total time_

6. Perform any necessary action(s) and list the results here:

7. Reprogram the module in accordance with the manufacturer's procedure if necessary. List your results:

8. Have your supervisor/instructor verify satisfactory completion of this procedure, any observations found, and any necessary action(s) recommended.
