1. Research the correct brake light bulb number(s) in the appropriate service information.
   a. **Specified brake lamp bulb number:** _____
   b. **High-mounted stop light bulb number, if equipped with replaceable bulbs:** _____

2. Locate the wiring diagram for the brake warning light system. **List below the name of each switch that can illuminate the brake warning light:**

3. Have another student step on the brake pedal while you observe the reaction of the brake lights (including the high-mounted stop light, if equipped). **List your observation(s):**

4. If the brake lights do not work properly, check simple things like individual bulbs to see if individual lights are out. If all of the brake lights are out, check the brake circuit fuse. **List your findings:**

5. **Determine any necessary action(s):**

6. Have your supervisor/instructor verify satisfactory completion of this procedure, any observations found, and any necessary action(s) recommended.
