

1 Preparedness for Pediatric Emergencies 2

- Introduction 3
- Emergency Department Preparedness 4
- Triage 4
- Child-Friendly Area 5
- Staffing 8
- Interface With Out-of-Hospital Care 8
- Equipment and Supplies 8
- Other Preparedness Issues 12
- Interpersonal Violence 12
- Parental Presence 13
- Transfer to a Higher Level of Care 15
- Disasters 16
- Chapter Review 17

2 Pediatric Assessment . . . 20

- Introduction 21
- Developing a General Impression: The Pediatric Assessment Triangle 25
- Assessing the Pediatric ABCDEs 35
- Summary of Initial Assessment 44
- Focused History and Physical Examination 44
- Ongoing Assessment 47
- Chapter Review 49

3 The Pediatric Airway in Health and Disease 52

- Introduction 53
- Anatomic and Physiologic Responses to Airway Maneuvers 54
- General Approach to Airway Emergencies 56
- Upper Airway Obstruction 61
 - Croup 61
 - Foreign Body Aspiration 64
 - Retropharyngeal Abscess 66
 - Epiglottitis 68
 - Anaphylaxis 69
- Lower Airway Obstruction
 - Bronchiolitis 71
 - Asthma 75
- Disease of Oxygenation and Ventilation and Disease of the Lungs 85
 - Bronchopulmonary Dysplasia 85

- Cystic Fibrosis 87
- Pneumonia 91
- Respiratory Failure 94
- Chapter Review 97

4 Cardiovascular System. . 106

- Introduction 107
- Congenital Heart Disease 108
 - Cyanotic Heart Disease 109
 - Noncyanotic Heart Disease 113
 - Congestive Heart Failure 114
- Acquired Heart Disease 116
 - Myocarditis 116
 - Acute Rheumatic Fever 118
 - Pericarditis 120
 - Bacterial Endocarditis 122
 - Kawasaki Disease 124
 - Rhythm Disturbances 126
 - Pulseless Arrest Rhythms 133
 - Cardiomyopathy 133
 - Postsurgical Complications 134
- Shock 137
 - Hypovolemic Shock 137
 - Cardiogenic Shock 138
 - Distributive Shock 139
- Chapter Review 141

5 Central Nervous System 146

- Altered Level of Consciousness 148
- Meningitis 154
- Encephalitis 159
- Headache 163
- Weakness 166
- Seizures 168
 - Febrile Seizures 168
 - Afebrile Seizures 170
- Status Epilepticus 174
- Chapter Review 179

6 Metabolic Disease 186

- Introduction 187
- Diabetic Ketoacidosis 187
- Hypoglycemia in Diabetic Children 192
- Hypoglycemia in Nondiabetic Children 192

Adrenal Insufficiency/Congenital Adrenal Hyperplasia	194
Diabetes Insipidus	196
Syndrome of Inappropriate Secretion of Antidiuretic Hormone	197
Water Intoxication	199
Metabolic Disease of the Newborn and Young Child	201
Chapter Review	205

7 Environmental Emergencies 208

Introduction	209
Envenomations	209
Snake Bites	209
Spider Bites	213
Body Temperature Disturbances	216
Minor Heat Illnesses	218
Major Heat Illnesses	218
Hypothermia	220
Submersion Injury	224
Chapter Review	229

8 Toxicology: Ingestions and Smoke Inhalation . . 234

General Evaluation and Management of Ingestions	235
Specific Ingestions	240
Acetaminophen	240
Ethanol	242
Methanol and Ethylene Glycol	242
Anticholinergic Agents	243
Caustics	244
Clonidine	245
Cyanide	246
Cyclic Antidepressants	247
Hydrocarbons	248
Iron	249
Opioids	251
Organophosphates	252
Salicylates	253
Selective Serotonin Reuptake Inhibitors	255
γ-Hydroxybutyrate	256
Ecstasy	256
Overall Management Issues	257
Additional Routes of Exposure	257
Smoke Inhalation	258
Chapter Review	263

9 Trauma 268

Introduction	270
Pathophysiologic and Anatomic Considerations	270
Assessment and Management	273
Primary and Secondary Surveys	274
Central Nervous System Injuries	286
Cranial and Intracranial Injuries	291
Seizures	295
Extracranial Head Injuries	295
Spinal Injuries	296
Chest Injuries	307
Abdominal Injuries	309
Burns	312
Electrical Trauma	316
Other Burns	318
Summary	319
Chapter Review	320

10 Child Maltreatment. . . 324

Introduction	325
Physical Abuse	326
Bruises and Bites	328
Burns	329
Head Injuries	330
Abdominal Injuries	332
Skeletal Injury	333
Sexual Abuse	337
Acute Sexual Assault	344
Neglect	349
Münchhausen Syndrome By Proxy	351
Summary	352
Chapter Review	354

11 Nontraumatic Surgical Emergencies 360

Necrotizing Enterocolitis	361
Malrotation and Midgut Volvulus	367
Pyloric Stenosis	371
Intussusception	376
Meckel Diverticulum	382
Testicular Torsion	386
Pediatric Inguinal Hernia	389
Appendicitis	393
Chapter Review	398

12 Nontraumatic Orthopedic Emergencies 410

- Developmental Dysplasia of the Hip 411
- Rotational Deformities 416
- Metatarsus Adductus 416
- Internal Tibial Torsion 417
- Excessive Femoral Anteversion 418
- Angular Deformities 421
- Blount Disease 421
- Radial Head Subluxation 425
- Legg-Calvé-Perthes Disease 427
- Slipped Capital Femoral Epiphysis 429
- Acute Septic Arthritis 432
- Osgood-Schlatter Disease 436
- Summary 437
- Chapter Review 438

13 Medical Emergencies . . 446

- Introduction 447
- Sepsis 447
- Fever in Children at Risk for Sepsis 451
- Sickle Cell Disease 455
- Dermatologic Emergencies 458
- Epididymitis 462
- Balanitis/Balanoposthitis 463
- Urinary Tract Infections—Cystitis and Pyelonephritis 464
- Hypertension 466
- Acute Glomerulonephritis 468
- Nephrotic Syndrome 469
- Syncope 470
- Chapter Review 473

14 Neonatal Emergencies . 476

- Introduction 477
- Resuscitation of the Newly Born 477
- Fever 481
- Bacterial Sepsis 482
- Lethargy 484
- Irritability 485
- Apnea 486
- Cyanosis 486
- Congenital Heart Disease 487

- Grunting 487
- Vomiting 487
- Constipation 489
- Diarrhea 490
- Seizures 490
- Withdrawal 491
- Gastrointestinal Bleeding 491
- Umbilical Problems 492
- Hyperbilirubinemia 492
- Chapter Review 494

15 Procedural Sedation and Analgesia 498

- Introduction 499
- Pain Assessment 503
- Medications Used in Analgesia and Sedation 506
- Medication Selections 514
- Summary 518
- Chapter Review 520

16 Interface With EMS 524

- Introduction 525
- Origin of EMS Systems 526
- Federal EMSC Program 527
- EMSC Landmarks 533
- Physician's Role in EMSC 536
- Future of EMSC 537
- Chapter Review 538

17 Disaster Management . 542

- Introduction 543
- Emergency Management Process 544
- Children and Disaster Planning 545
- Planning by Community Medical Practitioners 549
- Planning by EMS Agencies 550
- Planning by Hospitals 552
- Planning by Community Agencies 554
- Planning by Community Emergency Management 555
- Response and Recovery Phases 556
- Mitigation Phase 559

Pediatric Medical Issues After Community-wide Disasters	559
Pediatric Mental Health Issues After Disasters	562
Summary	562
Chapter Review	564

18 Preparedness for Acts of Nuclear, Biological, and Chemical Terrorism . . . 568

Introduction	569
Major Biological Agents	571
Anthrax	571
Smallpox	575
Plague	576
Botulism	576
Tularemia	577
Viral Hemorrhagic Fevers	577
Chemical Agents	577
Nerve Agents	577
Vesicant Agents	580
Cyanide	580
Radiation Exposure	581
Early Recognition	587
Chapter Review	589

19 Children With Special Health Care Needs . . . 592

Introduction	593
Tracheostomies and Home Ventilation	595
Feeding Tubes and Gastrostomy Tubes	599
Central Venous Catheters	602
Dialysis Shunts and Peritoneal Dialysis Catheters	604
Ventriculoperitoneal Shunts	605
Chapter Review	607

20 Medical-Legal Considerations 610

Introduction	612
Medical Malpractice and the ED	612
Statute of Limitations	613
High-Risk Cases in Pediatric Emergency Medicine	613

Documentation	614
Communication	616
Consultants	617
Issues of Consent	619
Refusal of Care	622
Transfer of Care	623
Family Presence	625
Death and Dying	627
Organ Donation	630
The Medical Examiner	631
Chapter Review	632

21 Office-Based Emergencies 638

Section 1. General

Office Preparedness	640
1.1 Telephone Triage	640
1.2 Monitoring the Waiting Area	640
1.3 Staff Education	640
1.4 Equipment and Medications	642
1.5 Emergency Transport	644
1.6 Patient and Parent Education	644

Section 2. Trauma 644

2.1 Major Trauma	644
2.2 Minor Trauma	644
2.3 Minor Head Trauma	645
2.4 Minor Torso Trauma	646
2.5 Soft Tissue Injuries	646
2.6 Lacerations	647
2.7 Suturing	647
2.8 Staples	651
2.9 Tissue Adhesive Application	654
2.10 Human and Animal Bites	654

Section 3. Foreign Bodies 654

3.1 Subcutaneous Foreign Body Removal	655
3.2 Nail Bed Splinter Removal	656
3.3 Ocular Foreign Body Removal	656
3.4 Cerumen/Aural Foreign Body Removal	657
3.5 Nasal Foreign Body Removal	659

Section 4. Minor Burns 660

4.1 Minor Burns	660
-----------------	-----

Section 5. Miscellaneous

Procedures	662
5.1 Subungual Hematoma Drainage	662
5.2 Paronychia	662
5.3 Skin Abscess Drainage	663
5.4 Fish Hook Removal	664

5.5 Ring Removal	665
5.6 Contact Lens Removal	666
5.7 Eye Patching	666
5.8 Tooth Reimplantation and Stabilization	667
5.9 Management of Penile Zipper Injury	667
5.10 Reduction of Inguinal Hernia	668
5.11 Reduction of Paraphimosis	668
5.12 Reduction of Rectal Prolapse	669
Chapter Review	671

22 Critical Procedures 674

Introduction	676
Section 1: Pediatric Length-Based Resuscitation Tape	676
Section 2: Cervical Spine Immobilization	677
Section 3: Monitoring	681
3.1 ECG Monitoring	681
3.2 Impedance Pneumatography	683
3.3 Blood Pressure Monitors	683
3.4 Pulse Oximetry	683
3.5 Exhaled CO ₂ Monitors	685
Section 4: Oxygen Administration	686
4.1 Nasal Cannula	686
4.2 Oxygen Mask	687
4.3 Nonrebreathing Masks	687
4.4 Oxygen Hoods	688
Section 5: Suction	688
Section 6: Opening the Airway	691
6.1 Chin-Lift Maneuver	691
6.2 Jaw-Thrust Maneuver	692
Section 7: Airway Adjuncts	692
7.1 Oropharyngeal Airways	692
7.2 Nasopharyngeal Airways	693
Section 8: Bag-Mask Ventilation	695
Section 9: Management of Upper Airway Foreign Bodies With Magill Forceps	699
Section 10: Emergent Intubation	700
10.1 Endotracheal Intubation	700
10.2 Rapid Sequence Intubation	702
Section 11: Rescue Airway Techniques	710
11.1 Supraglottic Devices	710
11.1A Laryngeal Mask Airway	711
11.1B Combitube	713
11.2 Specialized Laryngoscopes	714
11.2A Fiberoptic Scopes	714
11.3 Laryngoscopes With Special Blades	714
11.3A Lighted Stylet	714
11.4 Tracheal Guides	715

Section 12: Surgical Airway

Techniques 716

12.1 Needle Cricothyrotomy	716
12.2 Retrograde Intubation	718
12.3 Wire-Guided Cricothyrotomy	720
12.4 Surgical Cricothyrotomy	720
12.5 Tracheostomy Management	721

Section 13: Cardioversion and Defibrillation 723

13.1 Cardioversion and Defibrillation	723
13.2 Automated External Defibrillator	725

Section 14: Vascular Access 727

14.1 Peripheral Venous Catheter Placement	727
14.2 External Jugular Vein Cannulation	729
14.3 Central Venous Catheter Placement	730
14.4 Umbilical Vein Catheterization	734
14.5 Intraosseous Needle Placement	736
14.6 Venous Cutdown	738

Section 15: Thoracic Procedures 741

15.1 Needle Thoracostomy (Thoracentesis)	741
15.2 Tube Thoracostomy	742
15.3 Emergency Thoracotomy	744
15.4 Pericardiocentesis	745

Section 16: Miscellaneous Procedures 747

16.1 Nasogastric/Orogastric Intubation	747
16.2 Catheterization of the Bladder	749

Section 17: Orthopedic Procedures 752

17.1 Compartment Syndrome	752
17.2 Dislocations	756
17.3 Shoulder Dislocation	756
17.4 Elbow Dislocation	757
17.5 Knee Dislocation	758
17.6 Hip Dislocation	759
17.7 Splinting	759
17.7A Volar Arm Splint	760
17.7B Sugar-Tong Splint (Forearm)	760
17.7C Ulnar Gutter Splint	761
17.7D Thumb Spica Splint	761
17.7E Sugar-Tong Splint (Upper Extremity)	761
17.7F Finger Splints	763
17.7G Posterior Splint (Lower Extremity)	763
17.7H Sugar-Tong Splint (Lower Extremity)	763
17.8 Crutch Walking	764

Chapter Review 765
