

## I Functions 1

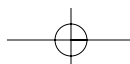

## Contents

### 1 Research: What, Why, and How 3

The Nature of Scientific Inquiry	4
Social-Science Research and the “Real World”	5
Science Versus Casual Inquiry	6
The Scientific Method	7
The Relationship Between Theory and Research	7
Theory	8
Inductive Logic	8
Deductive Logic	8
The Purpose of Research	9
What Research Is	9
Applied Research	10
Basic Research	10
Multipurpose Research	11
Types of Research	12
Descriptive Research	12
Explanatory Research	13
Predictive Research	13
Intervening Research	14
Why Research Is Necessary	14
Curiosity	14
Social Problems	15
Theory Testing	15
Factors That Influence Research Decisions	15
How Research Is Done	16
Identifying the Problem	16
Research Design	16
Data Collection	17
Data Analysis	17
Reporting	17
Summary	18

### 2 The Language of Research 21

The Language of Research	22
Theory	22
Conceptualization	23

Operationalization	24
Variables	24
Hypotheses	26
Assumptions	29
Other Key Terms	29
Population	29
Sample	30
Validity	30
Reliability	31
Data	31
The Research Process	31
Summary	32

---

### **3 Getting Started 34**

---

Picking a Topic	35
The Purpose of the Research	37
Exploring	37
Describing	37
Explaining	38
Reviewing the Literature	38
Become Familiar with the Library	39
Text/Journal Abstracts	39
Scholarly Journals	40
Textbooks	40
Social-Science Indexes	40
Internet Searches	40
Critiquing the Literature	40
Understanding Writing Styles	41
Knowing What to Look For	42
The Research Question	43
Hypotheses	43
Summary	44

---

### **4 Research Ethics 48**

---

The Researcher's Role	50
Ethical Considerations	51
Ethical Ramifications	51
Harm to Others	51
Privacy Concerns	52

Informed Consent	53
Voluntary Participation	53
Deception	54
The Professionalism of Research	54
Ethical Research Criteria	55
Avoiding Harmful Research	55
Being Objective	55
Using Integrity	55
Protecting Confidentiality	56
Reasons for Confidentiality and Privacy	56
Privacy Protections	56
Summary	57
Example of an IRB Submission	59

---

## **5 Qualitative Research 65**

---

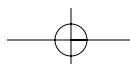

Qualitative Versus Quantitative Research	66
Qualitative Research Defined	67
Merits and Limitations of Qualitative Research	67
What You Have Done Before	67
Types of Qualitative Research	68
Field Interviewing	68
Focus Groups	71
Field Observation (or Participant-Observer)	71
Ethnographic Study	73
Sociometry	73
Historiography	74
Content Analysis	74
Summary	75

---

## **6 Quantitative Research 78**

---

Quantitative Research	79
Quantitative Research Defined	79
Qualitative Versus Quantitative Research, Part II	79
What You Have Not Done Before	80
Empirical Observation	80
Causality	81
Idiographic and Nomothetic Causes	81
The Criteria for Causality	81
Necessary and Sufficient Cause	82

False Precision	82
Quantitative Measurement	82
Levels of Measurement	82
Types of Quantitative Research	85
Survey Research	85
Field Research	87
Unobtrusive Research	88
Analysis of Existing Data	88
Quantified Historical Research	88
Quantified Content Analysis	88
Evaluation Research	89
Combination Research	90
Summary	90

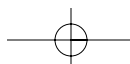

## **II Procedures 93**

### **7 Research Designs 95**

Research Designs	96
Historical	96
Descriptive	98
Developmental, or Time Series	99
Case Studies	101
Correlational	102
Causal-Comparative	102
Summary	104

### **8 Questionnaire Construction 106**

Questionnaire Development	107
Rules for Questionnaire Construction	108
Rule One	108
Rule Two	109
Rule Three	113
Rule Four	113
Rule Five	113
Rule Six	114
Rule Seven	114
Rule Eight	114

Rule Nine	116
Rule 10	116
Scales	118
Scaling Procedures	118
Arbitrary Scales	119
Attitudinal Scales	119
Summary	120

---

## **9 Sampling 123**

---

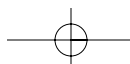

Sampling	124
Probability Theory	125
Probability Sampling	126
Simple Random Samples	126
Stratified Random Samples	127
Systematic Samples	127
Cluster Samples	127
Nonprobability Sampling	128
Purposive Samples	129
Quota Samples	130
Snowball Samples	131
Convenience Sample	131
Sample Size	132
Confidence Levels	132
Sampling Formulas	133
A Commonly Used Sampling Formula	133
A Sampling-Size Selection Chart	135
Summary	136

---

## **10 Data Collection 139**

---

Data Collection	140
Survey Research	140
Mail Surveys	141
E-mail	143
Self-Administered Surveys	144
Interviews	146
Structured Interviews	146
Unstructured Interviews	146
In-depth Interviews	146
Face-to-Face Interviews	147

Telephone Surveys	148
Comparison of Survey Strategies	148
Other Data-Collection Techniques	149
Observation/Field Research	149
Unobtrusive Data Collection	151
Summary	154

### **III Final Steps 159**

---

#### **11 Data Processing and Analysis 161**

---

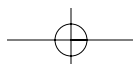

Data Processing and Analysis	162
Data Processing	162
Data Coding	162
Data Entry	163
Data Cleaning	166
Missing Data	166
Recoding Data	167
Data Analysis	168
Statistical Analysis	168
Descriptive Statistics	169
Frequency Distributions	169
Displaying Frequencies	170
Measures of Central Tendency	170
Measures of Variability	173
Skewness	175
Kurtosis	176
Comparative Statistics	177
Summary	177

---

#### **12 Inferential Statistics 179**

---

Statistical Analysis	180
An Overview of Inferential Statistics	180
Measures of Association	180
Statistical Significance	181
Comparative Statistics	182
Crime Rates	182
Crime-Specific Rates	183
Percentage Change	184

Trend Analyses	184
Inferential Statistics	185
Bivariate Analysis	185
Contingency Tables	185
Bivariate Regression	185
Multivariate Analysis	187
Student's t-Test	187
Correlation	187
Analysis of Variance	188
Multiple Regression	188
Other Multivariate Techniques	189
Nonparametric Techniques	191
Summary	191

---

### **13 Writing the Research 193**

---

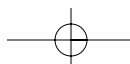

The Research Paper	194
The Title Page	194
Abstract	194
The Introduction	195
Methodology	197
Results	200
Conclusions	203
References and/or Bibliography	203
References	204
Tables and Figures	207
Appendixes	207
Summary	207

---

### **14 Summing Up 210**

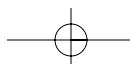

---

Summing Up	211
Doing Criminological Research	211
Types of Research	212
Steps in Research	212
The Language of Research Theory	212
Conceptualization	212
Operationalization	212
Variables	213
Hypotheses	213
Sampling	213

Validity	213
Reliability	213
Data	214
Nominal Data	214
Ordinal Data	214
Interval Data	214
Ratio Data	214
Getting Started	214
Picking a Topic	214
Reviewing the Literature	215
The Research Question	215
Hypotheses	215
Variables	215
Research Ethics	215
Ethical Concerns	216
Ethical Research Criteria	216
Qualitative Research	217
Types of Qualitative Research	217
Quantitative Research	218
Causality	218
False Precision	218
Types of Quantitative Research	219
Research Designs	219
Types of Design	220
Questionnaire Construction	222
Rules for Questionnaire Construction	222
Scales	222
Sampling	223
Probability Theory	223
Probability Sampling	223
Nonprobability Sampling	224
Sample Size	224
Confidence Levels	225
Data Collection	225
Survey Research	225
Data Processing and Analysis	227
Dealing with Missing Data	227
Recoding Data	227

Data Analysis	227
Inferential Statistics	228
Nonparametric Techniques	229
Writing the Research	230
Summary Statement	231
