Create the Ultimate Custom Course Package

With LiveCarta you can remix chapters from multiple Jones & Bartlett Learning titles or customize a single title to fit your curriculum.

Rethink Your Curriculum with a Custom Package

With a custom LiveCarta course bundle, you can:

- Reduce course costs for your students
- Streamline resources into a single digital package
- Simplify your class preparation
- Engage students with media-rich content

How It Works

STEP 1

Browse

Choose relevant chapters from the Jones & Bartlett Learning LiveCarta library of titles to create a Collection—a group of chapters you put together from the same book, different books, newly created chapters, or a combination of these.

STEP 2

Mix and Match

Select chapters from different books in your custom Collection and add your text or custom chapters to expand on the material.

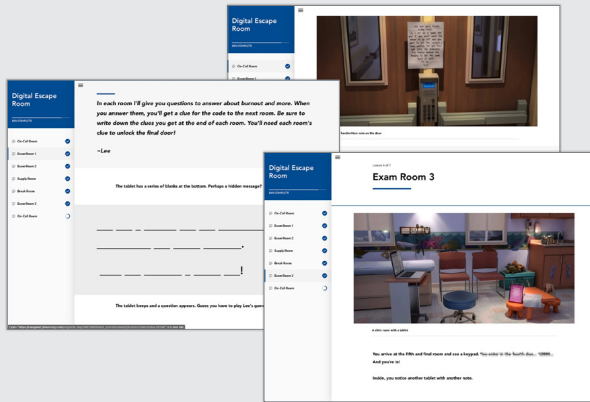

STEP 3

Share

Send a link to your custom Collection to your students. They purchase your custom course package of trusted Jones & Bartlett Learning content directly from LiveCarta and are ready for day one of class!

Bring Concepts to Life!

Our innovative digital learning resources allow students to safely experience situations they'll encounter in their nursing careers, preparing them to make sound clinical decisions and provide optimal patient-centered care.

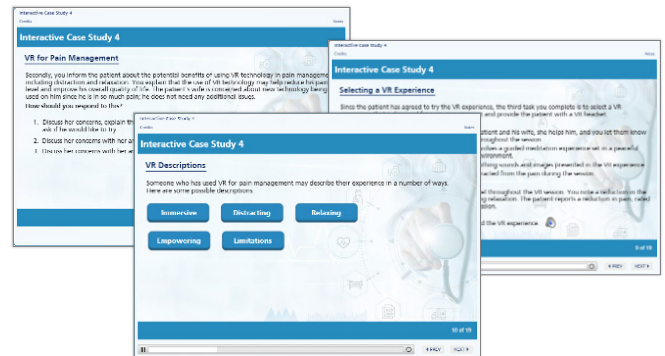

Digital Escape Room

Accessed through Navigate Advantage for **Brown's Evidence-Based Nursing: The Research-Practice Connection, Fifth Edition**, this unique **Digital Escape Room** allows students to play the part of a new practitioner at an urgent care center. They'll progress through a fun scenario set up by a friendly coworker and will need to answer questions on nursing burnout to find clues and move through various rooms at the urgent care center before making their "escape."

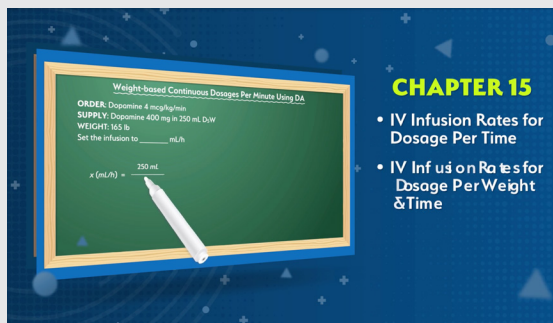

Learn more at go.jblearning.com/BrownsEscapeRoom

The updated Sixth Edition of **Nursing Informatics and the Foundation of Knowledge** features new **Unfolding Case Studies** that allow students to immerse themselves in a clinical situation and dive deeper into key concepts from the text. These 10 new unique interactive case studies are accessed through Navigate Advantage.

Learn more at go.jblearning.com/nursinginformatics

Unfolding Interactive Case Studies

Illuminations: Video Calculation Clips

These short **clinical calculation video clips**, available in Navigate Advantage for the updated **Clinical Nursing Calculations, Third Edition**, demonstrate the key math skills covered throughout the text to include metric conversions, basic dosage calculations, computations requiring reconstitution, basic and critical care IV calculations, safe dosage determination, and implementation of a weight-based heparin protocol.
