

# Adding JB Learning Content to Your Moodle LMS

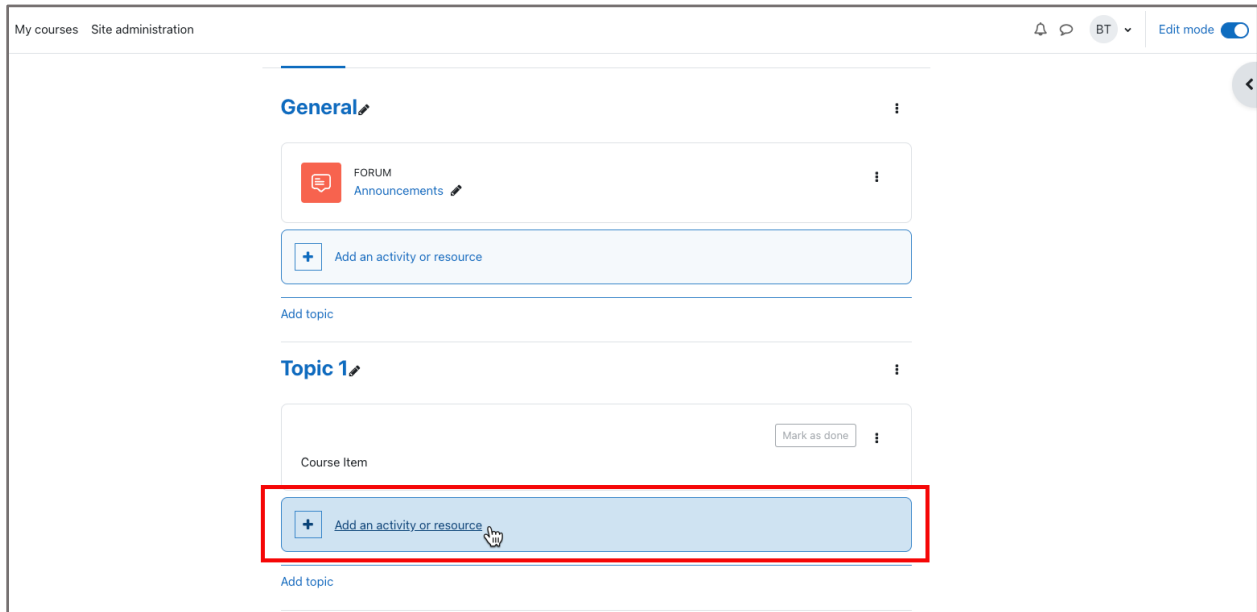

*This document provides steps for adding, or deep-linking, JB Learning online courseware within your Moodle Learning Management System (LMS). Note, an LTI integration with JB Learning is a prerequisite, and these instructions assume applicable initial steps are complete.*

1. First, navigate to a course, or create a new course, in which you would like to add JB Learning Course contents in your Moodle LMS. Then, toggle the **Edit mode** button at the top-right corner of the page to **ON**.

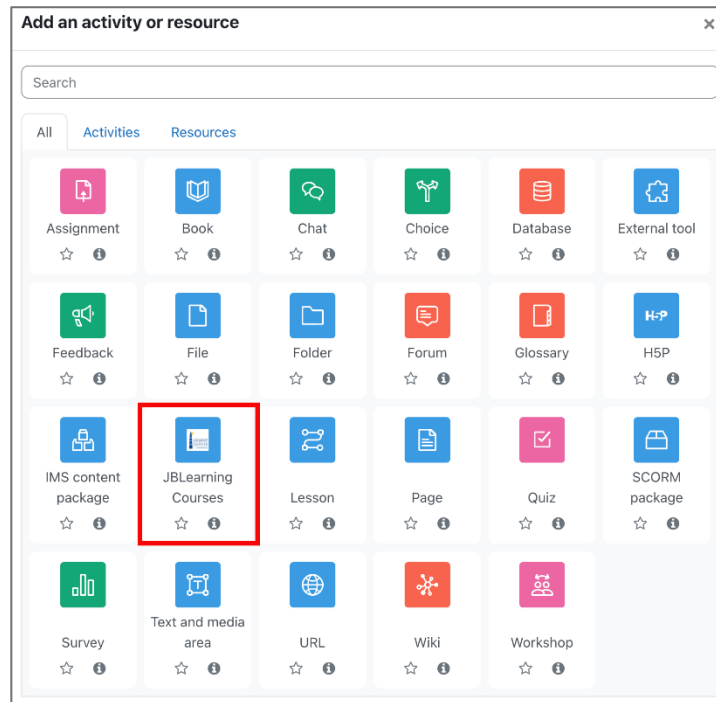

Technical Support: [www.jblearning.com/techsupport](http://www.jblearning.com/techsupport) | [support@jblearning.com](mailto:support@jblearning.com) | 1-978-443-5000 | M-F 8:30am – 8:00pm

- Next, scroll down as needed to locate the chapter/module you would like to add JB Learning course contents, and click on **Add an activity or resource** button at the bottom of the chapter/module you choose.

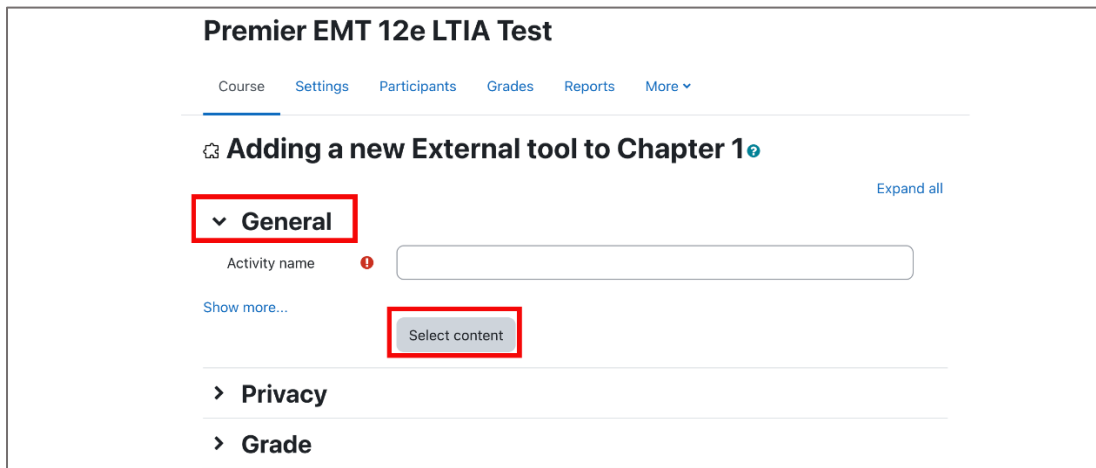

- From the options in the pop-up window, select the preconfigured **JB Learning Courses** tool.

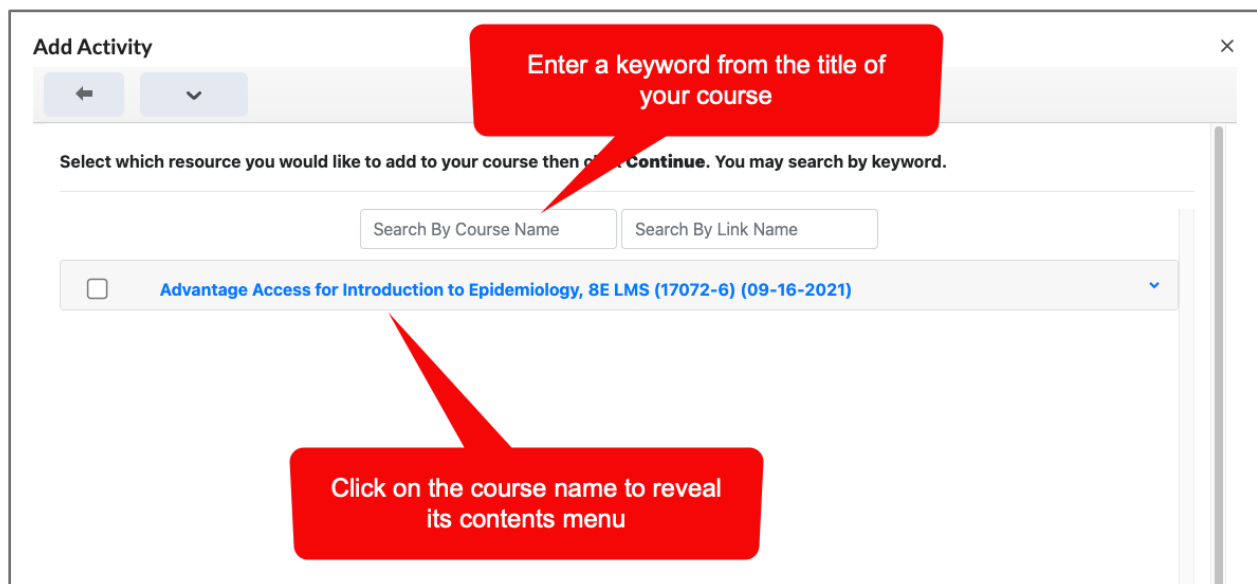

Technical Support: [www.jblearning.com/techsupport](http://www.jblearning.com/techsupport) | [support@jblearning.com](mailto:support@jblearning.com) | 1-978-443-5000 | M-F 8:30am – 8:00pm

4. On the following page, under the **General** settings, click on the **Select content** button to proceed.

3. A popup window displays a list of available courses to which you have access. Use the **Search By Course Name** field to locate your course as needed. The list automatically refreshes results based on keywords entered. Click on your course's name to display a dropdown list of its contents, then use the **Search By Link Name** to further filter by individual course assets, if necessary. The course item's menu must be expanded to use this search option. **Note**, it is important to only add content from approved titles for your course. Students are unable to access any content outside of your chosen curriculum.

5. Contents are organized using the default course structure, typically by chapters aligned with the textbook. You may add the chapter contents to the according modules/chapters one at a time (**recommended**) by selecting the checkbox to the left of the chapter name, then clicking **Continue**.

Select which resource you would like to add to your course then click **Continue**. You may search by keyword.

<input checked="" type="checkbox"/>	Chapter 1 Foundations of Epidemiology
<input checked="" type="checkbox"/>	Chapter 1 Foundations of Epidemiology
<input checked="" type="checkbox"/>	Learning Objectives: Chapter 1
<input checked="" type="checkbox"/>	Chapter 01 eBook Quiz

7. The following summary page displays a preview of the contents selected. When you are ready, click on **Save and return to course** button at the bottom.

### Adding a new External tool to Topic 1

The following items will be added to your course:

- **Chapter 1 Foundations of Epidemiology**
- **Learning Objectives: Chapter 1**
- **Chapter 01 eBook Quiz** *Graded activity (Maximum grade: 100)*
- **Flashcards: Chapter 1**
- **Slides: Chapter 1**

**Save and return to course**

8. You are returned to your course where the imported contents are added to the chapter/module. Repeat these steps as needed to continue building your course.

Add an activity or resource

9. Alternatively, you may select individual items from chapter(s) from the menu one at a time, or multiple in combination. Using the same JB Learning Courses tool as shown in Steps 2-4, expand the course's content menu and use the respective checkboxes to the left of the item to import, then click **Continue**.

Select which resource you would like to add to your course then click **Continue**. You may search by keyword.

<input type="checkbox"/>	Chapter 1 Foundations of Epidemiology
<input checked="" type="checkbox"/>	Chapter 1 Foundations of Epidemiology
<input type="checkbox"/>	Learning Objectives: Chapter 1
<input checked="" type="checkbox"/>	Chapter 01 eBook Quiz

+ Add an activity or resource

13. Lastly, you may also add all contents to your D2L course in one step by selecting the checkbox to the left of the course name, then clicking **Continue**. **Note:** This method is not usually recommended as this results in putting all items in one chapter/module, and you may need to reorganize your course afterwards.

**Add Activity** [Close]

Select which resource to add to your course then click **Continue**. You may search by keyword.

14. The confirmation page displays a preview of the content selected. When satisfied, click the **Import Resources** button.

15. The following summary page displays a preview of the contents selected. When you are ready, click on **Save and return to course** button at the bottom.

16. You are returned to your course home page in which all items from every chapter are added to one module/chapter.

The screenshot shows a course interface with a header 'All Topics' and a list of six external tool items. Each item is enclosed in a white box with a red border. The items are:

- EXTERNAL TOOL: Instructor's Manual
- EXTERNAL TOOL: Manage Groups Link
- EXTERNAL TOOL: Manage Reports Link
- EXTERNAL TOOL: Chapter 1 Foundations of Epidemiology
- EXTERNAL TOOL: Learning Objectives: Chapter 1
- EXTERNAL TOOL: Chapter 01 eBook Quiz

Each item includes a 'Mark as done' button and a vertical ellipsis menu icon.
