

How to Use the Regrade Function

This document provides directions on how to use the regrade function in Navigate. It covers how to edit quiz questions and answers that have already been completed by students and how to regrade based on any changes made to the quiz, including changes to full or partial credit for certain answers.

1. Begin by navigating to and clicking on the quiz for which you would like to make changes before regrading.

3. Scroll down to the **Quiz structure analysis** section. This table displays a report of how each individual question was answered, with the first column, the Facility Index, indicating what percentage of students answered each question correctly. Click on the **Question Name** of the question that needs to be adjusted.

Quiz structure analysis

Download table data as Comma separated values (.csv) Download

Q#			Question name	Attempts	Facility index	Standard deviation	Random guess score	Intended weight	Effective weight	Discrimination index	Discriminative efficiency
1			"Chondro" in the word chondritis means:	3	100.00%	0.00%	25.00%	10.00%	0.00%		
2			"Gastro" in the word "gastroenteritis" means:	3	66.67%	57.74%	25.00%	10.00%	22.83%	94.49%	100.00%
3			"Myo" in the word myocarditis means:	3	100.00%	0.00%	25.00%	10.00%	0.00%
