Q: How many episodes or situations are there for each product (e.g. Organizational Behavior)?

A: For each Navigate Scenario product there are 4 different episodes or situations. Each episode has 8 scenes with different characters weighing in on the topic of that episode.

Q: Are the scenarios time limited?

A: No, they are not.

Q: As an instructor, how do I access these?

A: The first step is to reach out to your account manager to get set up with a demo course access code/account. Once you've decided to use the product, you will receive an access code that you can redeem on the My Account page on the Jones & Bartlett Learning website.

Q: How long does it take to complete all the scenarios in a given Navigate Scenario product?

A: Each episode in a scenario takes about 45 minutes (depending on the student) to complete. Therefore, the full product would take the typical student about 3 hours to complete.

Q: Does this integrate with Canvas or LMS?

A: Yes, it's possible. Contact your account manager.

Q: Is this suitable for use in an online class?

A: Yes.

Q: How do the scenarios relate to content in a text?

A: The scenarios are book agnostic, but relate to the content in the course. We can provide competency mappings of a scenario to your text if that is helpful.

Q: As my students work through a scenario is their progress saved?

A: No, student progress isn't saved as they work through a scenario. However, the navigation bar (at the top right-hand corner) makes it easy for students to quickly jump to any scene in an episode at any time.

Q: Do my students need to complete all the assessments (written assessments and assessment quizzes) to complete a scenario?

A: All assessments are assigned at the instructor's discretion. Instructors can decide whether or not to assign them to their students.

Q: Are the assessment quizzes auto-graded?

A: Yes, the assessment quizzes are auto-graded and feed into the Navigate gradebook (set up by the instructor). A student can attempt these quizzes as many times as they wish, and their score will be overwritten each time. We do recommend saving a copy of their work as proof of completion.

Q: Is there a word count limit on written assignments?

A: No. While written assignment instructions will often recommend a target word count range the scenarios do not limit the number of words a learner can enter in their response.
